Process

ACF Lamination

Single Site ACF Lamination

Equipment Overview

The LD-02 is a compact semi-automatic tabletop ACF lamination unit. Substrates are set by hand on the stage. The unit then laminates the programmed amount of ACF at the set location.

Equipment dimension	W x D x H
	570 x 666 x 670 (mm)
Weight	About 75 Kg

Number of operators	1 person
---------------------	----------

Productivity	7.5 sec per piece (Excludes loading & unloading) (For reference only.)
--------------	--

From Prototyping to Production

This simple lamination unit is suited for lab or prototype use as well as for high-volume production.

User Friendly Design

Designed with simplicity in mind, the LD-02 allows set up and adjustment to be done by operators of all levels.

Versatile Design

By changing the stage design, this machine can be used to laminate ACF on almost any substrate type.

Compact Design

This compact tabletop laminator is easy to move, giving a high degree of flexibility in configuring your line.

Specifications Overview

Stage size	(W)170 x (D)120mm
ACF quantity	1 piece
Utilities	Compressed air 0.49Mpa Internal vacuum source 200-220V Single phase 3KVA
Bonding accuracy	±0.2mm along XY-axis
ACF Length	Max. 60mm
ACF Width	1-7.5mm
